I guess I need a tutorial! Sorry about that.

**UIC Meeting with Oil Industry:** EPA will join CA DOC/DOGGR and the State Board at a meeting with oil and gas industry representatives on January 13th in Bakersfield. The State will review EPA's Dec. 22 letter with the producers, describe the State's response plans, and answer questions. Per our Dec. 22nd letter, the State owes EPA a comprehensive plan by early February that describes State actions and milestones for returning the Class II UIC program to compliance by February 2017. A significant component of this effort is the development and processing of aquifer exemptions. We anticipate the meeting with industry on the 13th will focus heavily on that topic, with questions for the State and EPA about roles, process, and timeframes for decisions on proposed exemptions. (Albright, 2-3971)

Morning David,

I pulled the weekly and nothing is there, can you send me an email of your input.

Thanks

I entered a weekly report in the LNotes system, but it looked different, so if you can't access what I did, please let me know.
